

Whistleblowing System (WBS) is a mechanism for submitting complaints regarding suspected violations that have occurred or are likely to occur within the Bank. Complaints must be based on good faith and should not stem from personal grievances or be motivated by malice or slander.

Purpose of the Whistleblowing System

The Whistleblowing System aims to assist in detecting violations, including those against the law that harm the company, fraud, and other breaches, including but not limited to, the code of ethics, internal policies/regulations, and/or conflicts of interest. When implemented properly, WBS can also function as a control and monitoring tool to help enhance ethical behavior within the organization and encourage a positive shift in the organizational culture. This, in turn, will increase public trust in the Bank.

Reporting Methods

1. Source of Complaints

Below are the sources of complaints received by the whistleblowing system management.

Source	Description
